Oral Cavity and Pharynx Cancer - Cancer Stat Facts

Human Oral Microbiome Database. The goal of creating the expanded Human Oral Microbiome Database (eHOMD) is to provide the scientific community with comprehensive curated information on the bacterial species present in the human aerodigestive tract (ADT), which encompasses the upper digestive and upper respiratory tracts, including the oral cavity, pharynx, nasal passages, sinuses and esophagus.

Size of the global oral care market 2013-2024 | Statistic

To prevent too much liquid being lost from the child's body, an effective oral rehydration solution can be made using ingredients found in almost every household. One of these drinks should be given to the child every time a watery stool is passed. Ideally these drinks (preferably those that have been boiled) should contain: starches and/or sugars as a source of glucose and energy, some sodium ...
